

## About the Hawaii Macintosh & Apple Users' Society

---

Established in 1979, Hawaii Macintosh & Apple Users' Society, Inc. (aka HMAUS), was the first and is the largest registered Apple user group in Hawaii.

HMAUS, staffed entirely by volunteers, provides educational services and technical support for people who use Apple, Macintosh, iOS and related technologies. Funded primarily through membership and donations, HMAUS welcomes and serves all who wish to benefit from meeting interesting people, learning about new technology, and sharing knowledge with others.

HI Touch Learning Center Presents...

# Cyber Safety Symposium

---

22 August 2015  
Chapel, Arcadia  
Retirement Residence
